

ALEXANDRA RESHETNIKOVA

QA Engineer

— I have commercial experience in manual testing and practical experience in UI and E2E automation testing for web applications, gained through non-commercial projects using Playwright and Cypress with JavaScript. I am ready to apply my knowledge and skills to achieve common goals and grow within a team of professionals.

WORK EXPERIENCE

«RedRover.school»

Test Automation Engineer | Remote | January 2024 – Present

Test Automation on Two Non-commercial Projects.

- Creating test cases for automation in GitHub Board based on user stories and manual test scenarios.
- Automating UI and E2E tests using Playwright and Cypress with JavaScript in Visual Studio Code.
- Applying the Page Object Model (POM) to minimize code duplication and enhance test maintenance.
- Managing version control using Git and coordinating changes via GitHub.

Lead the Team of 10 Testers.

- Selecting participants and coordinating tasks, providing informational support.
- Organizing and facilitating weekly meetings for case discussions and planning.
- Initiating activities to support team members' professional growth and skill development.
- Conducting performance analysis using objective data and observations.
- Making decisions regarding the team composition and provide constructive feedback to participants.
- Preparing and delivering regular progress reports on team performance.
- Collaborating flexibly in an international team, adapting to time zones and asynchronous workflows.

«Rocket Firm»

Manual Software Testing Specialist | Hybrid | November 2021 – March 2024

Conducted functional and non-functional manual frontend testing using black-box techniques, as well as backend API testing in Swagger to ensure product quality. Worked closely with managers, developers, and other team members to address project tasks.

- Verified functionality for compliance with requirements and evaluated usability.
- Conducted cross-browser and cross-platform testing on Windows, macOS, Android, and iOS devices.
- Planned and executed various types of testing, including Smoke, Sanity, and Regression testing.
- Performed backend REST API testing based on documentation in Swagger.
- Created test cases and checklists, documented defects, and filed bug reports in Trello and JIRA.
- Performed re-testing after bug fixes.
- Tested in Kanban and Scrum teams and participated in discussions on improving user experience.

Individual Entrepreneur

Software Testing Services | Office-based | May 2018 – October 2021

Performed user interface (UI) testing for websites and web applications to achieve the planned project quality.

- Conducted cross-platform and cross-browser visual testing to ensure compatibility and consistency.
- Used Ad-hoc testing, improvising without specifications, plans, or pre-developed test cases.
- Performed exploratory testing, which does not require writing test cases, but implies that each subsequent test is chosen based on the result of the previous test.
- Implemented scenario testing based on previously written and documented test scenarios.

«АвтоАдвокат»

Executive Assistant | Office-based | June 2016 – March 2018

After university, while working at a law firm, I gained valuable experience that contributed to my future in testing.

- Communicated with clients and partners through written correspondence, phone calls, and in-person meetings.
- Reviewed insurance contracts, checked for errors and typos.
- Checked the availability of a complete set of up-to-date documents from clients.
- Managed and maintained internal documentation.

Notary office

Notary Assistant | Office-based | May 2011 – March 2012

Worked in the field of law, which later influenced my decision to pursue a university degree in Political Science and Law.

- Created and prepared documents for notarization in accordance with the Law of the Republic of Kazakhstan "On Notariat".
- Communicated with clients regarding legal notarial services.
- Maintained the register and entered information into the Unified Notarial Information System of the Republic of Kazakhstan.
